Explanations

- 1) Pursuant to Article 61(2) of Implementing Regulation 282/2011 the amendments referred to in paragraph 1 shall be submitted electronically to the Member State of identification within three years of the date on which the initial return was required to be submitted.
 - Pursuant to Article 61a(1) of Implementing Regulation 282/2011 a taxable person or an intermediary acting on his behalf shall submit his final VAT return and any late submissions of previous returns, and the corresponding payments, to the Member State which was the Member State of identification at the time of the cessation, exclusion or change where: he ceases to use one of the special schemes; he is excluded from one of the special schemes; he changes the Member State of identification in accordance with Article 57f. Any corrections to the final return and previous returns arising after the submission of the final return shall be discharged directly with the tax authorities of the Member State of consumption concerned.
- 2) The VAT amount resulting from the correction shall only be a difference with respect to the amount previously shown in the settlement for a given period for the Member State of consumption being the Republic of Poland. The value of this amount may be negative.
- 3) If the beneficiary's bank, besides the bank account number, also uses/requires a clearing number (e.g. ABA American Bankers Association in the USA, CC Clearing Code in Canada), enter it in the box with the beneficiary's bank number, at the beginning of this box, separating it from the account number with a dash.
- 4) The amount means the total amount of VAT due for Poland as the state of consumption, to be paid, resulting from the initial tax return.
